

8/11 - Surveillance Cameras

We have just installed security cameras. We used Campbell Security Company a local to the area. ***

we have surveillance cameras on properties

at one of our sites

Yes, we have 8 on both sites, they have proved to be very valuable!

Yes

Yes (Parking area at office/maintenance vehicles)

Yes

At select properties.

Yes we use surveillance primarily around office but with property layout it covers most

Yes, some areas on our property have them.

**

Yes-only in the offices & shop areas

Yes we have surveillance cameras on one of our sites

We use security cameras for the common areas and in the office

Parking area at office/maintenance vehicles)

We have them in the main office and managers offices and some parking lots.

Yes - 1) at one high rise senior developments it is on the 1st floor and at the elevator entrance on all floors (11);

2) at the other high rise senior development, it is on the first only; and

3) at the Island Community Center where GHA office is located.

10/07 - SECURITY CAMERAS

I have had security cameras installed now for 4 years due to we had 2 burglaries within 6wks of each other. I have them on the inside of my main office the one in the main lobby is the only one with recording capabilities. then we have one out in our maint shop with a motion sensor with a motion light, one in our community room also. Then on our other 2 shop buildings we have

alarms with out side strobe lights and sirens. Ours was installed by MIG securities from Corsicana, Texas they have installed several systems in big school

districts around here. (Trinidad)

We had cameras installed at out community center/playground. Brinks Security installed them. (Edgewood)

3D Maximum Security installed ours at Beckville and Henderson, He has also installed some at other Authorities. Very good system.

Chris Dunn, owner @ 3D Maximum Security

903-657-2217; 800-677-6273

m# 903-646-3535 (also recommended by Mt. Pleasant, Daingerfield and Nacogdoches)

We have them in our rent office and our in-take office. Altex out of San Antonio installed and maintains them. We have signage posted informing clients. (New Braunfels)

Greenville Housing Authority had security cameras installed inside and outside our offices (HCV only) about a year ago.

The system is wonderful and had already more than paid for itself by allowing us to document an incident in our lobby involving an applicant.

The system was installed and is maintained by Lemke Consulting & Sales, Inc., Allen Texas, www.lemkepc.com, 972-396-1535.

San Augustine has security cameras and a security gate. Security cameras came from "United Security Services" 936-632-8974.

We have security cameras in the community center, share store and laundry room only. We monitor them ourselves and do not record them . These cameras can be installed by anyone.

We do not have cameras on the property, those should probably be installed by a professional.

(Denison)

Seguin has security cameras in the office building and in the elderly high rise. A local firm, ATVS, did the work. The owner is Gus Stewart and the phone # is 830-372-3427. E-mail is atvs@gvec.net and the business name is Advanced Telecom and Video Solutions.

One PHA, who shall remain nameless, indicated they installed fake cameras that have actually served as a crime deterrent for them.
